

Fruity Character

Paula the Pear!

The pear that I used for my fruity character was from clipart off the Microsoft Word.

I got the eyes from http://www.superiorlabels.com/LK_Eyes_586_BW.... .

The mouth that I used I got from www.artvex.com/.../Lips_and_Mouths/0018515.gif

I got the picture of the legs from <http://www.xmission.com/~emailbox/clipart/leg...> .

This is my first design of the fruity character.

Review

Teacher: Excellent work! Paula will appeal to the target audience. She is bright and comical :) I think she might look more effective without the hat.

Sam (aged 15): I think Paula is awesome! I really like the eyes. Although I don't like the arms, they don't look right and the mouth could be made to look more friendly.

Improved design

I improved my fruity character by taking the hat off and also cutting off the arms because I thought that they didn't look right.
