

## PROJECT REVIEW

Complete this table with suitable comments to explain to the moderator how you thought the project went. The box will grow as you type so do not feel limited in what I can write.

Review Points	✓ or X	Write comments here to explain why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>PLANNING</b>			
Did I put all main tasks on the plan?	✓	I used the iDIDA website to help me work out what the main tasks are.	I would have compared my plan to some one elses.
Did I put most sub-tasks on the plan?	✓	I used the DIDA website to help me work out what the main tasks are. I also asked my teacher to make sure I had all of the sub tasks on the plan.	
Did I put the tasks into a sensible order?	✓	I put the tasks in the order that they are in on the DIDA website.	
Did I put sensible timings on my plan?	✓		I would of givin my self more time to do the tasks.
Did I make changes to the plan?	✓		I made a second version and made improvements on it,
Did my teacher check my plan?	✓		
Did I use the plan to help me stay on track?	✓		I should of used my plan to check whether I was on task.

Why do I think it was important to do this?

Review Points	✓ or X	Write comments here to justify why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>KEEPING TRACK</b>	✓		
Did I keep a project log?	✓	Every time I finished my task of the say I would try and make sure that I filled it in.	I would make sure that It was filled in more regularly, and of done it every day,
Did I record test user feedback?	✓	I made a review document for everything and then asked my teacher and friend to give me some feedback.	
Did I record what went well or changes required if anything took longer than expected?	✓		
<b>MY DATABASE WORK</b>	✓		
Did I produce the right information for Ann, Damien and Millie?	✓	I made a report for Ann that showed fruit showed fruit sorted in ascending order of sugar content. For Damien I made a query for fruit with HIGH vitamin C content & produced a report from this. For Millie I made a new query for orange and yellow fruit with more than 50 calories.	I changed the way the reports looked, by adding a picture of a fruit and changing the fonts and colours. If I had more time I would have liked ti have asked more people for feedback.
Did I produce useful information for myself?	✓	I did a search and made a report to show fruits that were RED as I did not eat enough of these	If I had more time I would have liked to have narrowed down my search to RED fruits with low calories or low sugar to see which

			are most healthy.
Did I use suitable titles on the results?	✓	I made sure each report said who it was for and what it showed. For example, for Millie's report my title was Millie's report. Orange & yellow fruit with more than 50 calories	I could have used word art to make the titles stand out if I had more time.
Did I make sure that the information is clear and easy to read?	✓ ✓	I made sure that you could read the writing ( that it was big enough and the right colours). I also asked my teacher to check my work before I finished it,	I would have asked more people my age to review my reports to make sure they were suitable.
Who were my test users? Were they helpful?		I asked my teacher and 2 people aged 15 to review my work, They helped me check that the reports were readable and suitable for the person they were designed for.	
What did my reviewer have to say?			

Review Points	✓ or X	Write comments here to justify why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>MY SPREADSHEET WORK</b>			
Did I use the form to collect my data for a week?	✓	I used the sheet from the fruity habits DIDA web page to record the amount and type (colours) of fruit I ate over the week,	I recorded my results at the end of the week. The results would have been more accurate if I had recorded the fruit I ate at the end of each day.
Did I use the design to create my spreadsheet?	✓	Yes I used the design given by the teacher as a guide to planning and creating my spreadsheet.	I could have used more of my own designs to make my spreadsheet more unique. I would also have asked more people for feedback
Did I test my spreadsheet properly?	✓	I tested my spreadsheet by changing the results to see if my formulae were correct.	I would have asked users for feedback, rather than just relying in my own testing.
Did I produce the charts that were asked for?	✓		
Did I produce my own chart?	✓		
Did I add the charts to the Fruit Check Survey Results in the right places?	✓		
Did I complete the text and make sure that the results made sense?	✓		

Who were my test users? Were they helpful?	✓	
What did my reviewer have to say?	✓	

Review Points	✓ or X	Write comments here to justify why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>MY RECIPE CARDS</b>	✓		
Did I choose one student from the survey?	✓	I chose Anne because she did not eat enough green fruit.	I could have chosen another student which was maybe lacking of red fruit.
Did I create two cards?	✓	I designed 2 recipe cards one was a drink which was a fruity smoothie, and the other was avocado soup.	Maybe I would have found something different for my recipe cards.
Did I create suitable recipes for ..... ?	✓	I made 2 suitable recipe cards for Anne because one was a green fruity smoothie and the other was the avocado soup.	I could have chosen another type of drink and food that still used a green fruit.
Did I use a suitable picture on each card?	✓	I used picture of a green smoothie for my drink recipe card. And on the Avocado soup card I had a picture of an avocado.	I could have chosen a better picture of the product, or maybe some more pictures from clipart.
Did I check that my cards would fit in my card holder?	✓	I printed out the recipe card holder and then stuck it together so I could see what it looked like, Then I printed out my recipe card and put it in the holder to make sure it fitted.	I just cut my recipe card to the border to make sure that it would defiantly fit.
Why did I choose those particular recipes?		I found a food and a drink that had a fruit green in it because that was the colour that Anne was lacking in.	Maybe I found something that was more snackish rather than soup
Who were my test users? Were they helpful?		My teacher and Jade, yes they were helpful because they told me what I could do to	To maybe change the type of font I used for my title.

	improve it.	
What did my reviewer have to say?	That my recipe card was bright and effective and that the writing was clear and that the pictures were suitable for what I chose,	I could of improved it by maybe using more clipart pictures of maybe getting a moving image.

Review Points	✓ or X	Write comments here to justify why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>MY RECIPE CARD HOLDER</b>			
Did I use the outline to create my holder?	✓	Yes, we used the template from the DIDA website.	
Did I make sure that my holder is the right size (A5)?	✓	We set up the holder to be A5 in size (we measured half a side of A4 paper to find out what size A5 is)	
Did I produce a suitable picture for the flap?	✓	Yes, I made a logo for the holder. I got a picture of a kiwi then I put it onto paint and then I got a picture of a spoon and put it on top of the kiwi to look more effective.	I would ask more test users for there opinions.
Did I add a sensible title to the flap?	✓	I used fruity friend as my title.	
Who were my test users? Were they helpful?		My test users were my teacher and cinnie, they told me what colours I should maybe have and any improvements I could make.	
What did my reviewer have to say?		That the recipe holder is suitable to the recipes that you chose because I used the colour green through tout everything.	

Review Points	✓ or X	Write comments here to justify why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>MY SLIDESHOW</b>			
Did I create a slideshow for 5-7 year olds?	✓	Yes I created a suitable slide show for 5-7 year olds.	I could ask 5-7 year olds and ask for there opinions.
Did I create 3 slides?	✓	Yes I created 3 slides.	
Did I use suitable images?	✓	My fruity friend is Paula the pear and I designed her by getting a picture of a pear and adding cartoon features to it. I also used a picture of what they could make so they could see how nice it looks.	I could of improved it by making the character from scratch and maybe getting more cartoon features for it. Also it would have been good to of found a moving image to appeal to the 5-7 year olds.
Did I include the right content on each slide?	✓	On the first slide I introduced my fruit Paula the pear, on the second slide I told them a interesting fact about the fruit, and lastly I suggested a fun way that it could be eaten.	I think that I should of spent more time on my slides and tried to improve them with more images and better colours.
Did I check that each slide shows for 5 seconds?	✓	I went onto the options on my slideshow and changed all the timings to five seconds then I checked that it worked.	I would have tested my slide show to make sure that it lasted for 5 seconds. I think that I would of improved it more if I would have had more feedback from people.
Did I check that the slideshow runs continuously?	✓	Yes I looped the slideshow to make sure that it runs continuously.	I would have tested my slide show to make sure that it lasted for 5 seconds. I think that I would of

			improved it more if I would have had more feedback from people
Did I check that my slideshow is fun for 5-7 year olds?	✓	Yes I checked that it is, because it is colourful and bright and is short and easy for them to read.	I would of shown it to the people of that age group to see whether they agree that they like it and its suitable.
Who were my test users? Were they helpful?		My testers were my teacher and Cinnie (age 15) They were very helpful because they picked out the things that I could improve.	I could of shown it to more test users so I could get a wider range of opinions.
What did my reviewer have to say?		They said that my Power Point was good, and bright and easy to read. But that there could be some improvements made such as more pictures used and that the colour is to pink and maybe there should be some green with it to go with the colour of the fruit.	<p><u>Slide 1</u>  <u>Teacher:</u> I think that you could improve it by adding a picture that could on every slide on the border.  <u>Cinnie (age 15) :</u> I Think that its good but that the colour green should be used.</p> <p><u>Slide 2</u>  <u>Teacher:</u> I think that you could improve it by adding a moving picture so it would appeal more to the kids.  <u>Cinnie (age 15):</u> I think that the font could be changed to something simpler but suitable.</p> <p><u>Slide 3</u>  <u>Teacher:</u> I think that the picture is suitable but maybe there could have been a more appealing picture for the kids.  <u>Cinnie (age 15):</u> I think that this slide is bright and good but there should be a moving animation like</p>

		a pear or something used.

<b>EPORTFOLIO</b>			
Did I make sure that my eportfolio has everything in the checklist?	✓	Yes I used my project plan to help me make sure that I included all of the tasks and subtasks.	
Have I produced an opening page to introduce myself?	✓	I made a homepage, I included a picture of my self on every page, and also to let them no who I am, I described what the E portfolio was as an introduction to the project.	I could of made changes such as writing more about my self rather than the project.
Have I included links to all the evidence?	✓	I created hyperlinks to my work. I tested my eportfolio to make sure each of the links worked. And then I asked a friend to test it,	It would have been easier if I made links as I went through the project, but you could not do this as I made the eportfolio at the end.
Have I saved my evidence files so that the moderator will be able to view them using the Moderator's Toolkit?	✓	Yes.	
Did I check that all my links work?	✓	I created hyperlinks to each of the eportfolio pages. I tested my eportfolio to make sure each of the links work. I asked a friend to test my eportfolio,	
Did I check that it's easy to find each item?	✓	I put the work in a logical order. For example, the fruity friend's slide show is in the fruity friends	I could have asked more people for their opinion, rather than just one test user and your teacher,

		section of your eportfolio. And, the recipe cards and recipe holders are in the fruity section of my eportfolio.	
Did I introduce each item clearly?	✓	At the beginning of each eportfolio page I talked about the tasks and the work included.	I could of talked more about the process of making each of the publications.
Does my eportfolio showcase my work?	✓	I put time and effort into designing the eportfolio so that it looks attractive and shows off my work. I made sure that the colour scheme and fonts were attractive too.	
Have I made sure I have included all sources on the SOURCES table?	✓	I updated my sources table at the end of the project, making sure that it contained all of my images.	It would have been better if I upated my sources table more reguarly as the project went on.
Did I get anyone to test my eportfolio and give me feedback?	✓	I asked my teacher and a friend to give me feedback. They tested my links and gave me their opinion on the colours and layout.	I could of asked more people for there opinion. And feedback,
Did I do anything to change my eportfolio after the feedback?	✓	I kept the colour of the hyperlinks the same, but I changed the colour of my fonts to black to make sure that they were easy too read.	I could have recorded these changes in a document to show evidence of my changes,

Review Points	✓ or X	Write comments here to justify why you gave the ✓ or the X. Give as much information as possible.	What improvements would you make if you could do it again?
<b>MY OWN PERFORMANCE</b>			
Did I make sure that I did everything on my plan?		At the end of the project I went through my plan to make sure that all of the tasks were complete. I used the plan as a checklist when making my eportfolio to make sure I included everything.	I would check the plan more regularly throughout the project.
Did I listen to what others had to say?		I asked people for feedback on each of the tasks. I made changes to my work to improve it.	I could ask more people. I often just asked my friend and a teacher. If I had more time I would have asked the whole group.
Have I included links to all the evidence?		I checked my eportfolio to make sure all of the links worked.	
Did I make improvements when necessary?		I asked people for feedback on each of the tasks. I made changes to my work to improve it. I have included my first designs and improved designs as evidence of the changes I have made to my publications.	
Did I make good use of my skills?		I have used a range of skills from ICT to communication. For example, when asking people for feedback.	I would like to have worked as a team more often.
