

I have used wordart for my titles to make them stand out and grab peoples attention. I have used the same wordart on each page to make it look professional.

I have used a picture from clipart and opened with Macromedia Fireworks MX 2004 to remove the colourful background so it looks neater and more professional.

I have used wordart for my titles to make them stand out and grab peoples attention. I have chosen CURLZ MT as my font because I think it's fun and eye catching.

I have chose a clipart picture with a plain background to use as a colouring in picture which I hope, along with the word search, it will appeal to my target audience and make them want the leaflet. I also bordered them to make them look more professional.

I have used colourful pictures from clipart to make them stand out. I have made sure they are relevant so it is professional.

I have created stars using the autoshape tool to make my borders my eye catching and interesting, then copied and pasted them to the same place on each page to make my leaflet professional.

I have used a copyrighted picture and opened with Macromedia Fireworks MX 2004 to remove the colourful background so it looks neater and more professional.

My evaluation (By Molly)

**Strengths** 🍌

The background/border is consistent, light green colour with a sloping border, which makes it look neat and professional. It is very bright and colourful, I have used reds, blues, greys, and a lot of other colours, which makes it appeal to my target audience.

**Areas for development** 🧐

Edit some of the white splodges off because they look tacky.

Make some of the text sizes more consistent, so they look neater, maybe size 14 and 12.

Make pictures clearer.

**Year 8 ICT**

Hellesdon High School is organising its annual panto!  
 Year 8 ICT students are in charge of designing the programme...  
 This collection of work by **Molly Baldry** achieved a **level 6!**
