

Feedback on playlist.

My feedback:

Strengths	Weaknesses	Areas for development
Information given is easy to understand and clear to read. it gives all the relevant information you need to know.	Add information: I need to add some information such as names, charities, time slots and a relevant picture.	Add information: I need to add the information to the left.
The colour of the background and font is a good contrast because it enables the reader to read the writing with ease.	Layout: I think I should change my report to landscape instead of portrait.	Layout: I need to change my layout to landscape.

Test buddies feedback:

Strengths	Weaknesses	Areas for development
Information: It gives most of the information that the report should have.	Layout : I think that Jess could change her layout to make it look different and more interesting to the audience.	Information: They need to include the name of the dancer, Chosen Charities, time slots and a relevant picture.
Colour: I think that the colour is suitable for both boys and girls. It also is in keeping with the rest of the project.	Need to add the extra information.	Layout: Rearrange the layout to fill in the big blank space and maybe change it landscape.
