

My Data Entry Form

Neutral Background Colour

I added my title

I added my danceoclock logo

Track ID	<input type="text"/>	Track Number	<input type="text" value="1"/>
Title	<input type="text" value="Bleeding Love"/>	Year of release	<input type="text" value="2007"/>
Genre	<input type="text" value="UR"/>	Length(Seconds)	<input type="text" value="180"/>
Artist	<input type="text" value="Leona Lewis"/>	Effort Rating	<input type="text" value="M"/>
Album Title	<input type="text" value="Leona Lewis"/>		

Buttons: Previous Record, Next Record, Add Record, Find Record, Save Record, Delete Record

I made sure that all of my work was in arial

I added 6 buttons to make it easier for my users and added text labels for the picture buttons so my users would know what they were

I made sure that there was a space in between all of the boxes in design view

I made a shadow effect by right-clicking and selecting special effects

Test Buddy Evaluation

In this I got my test buddy to fill in the table below.

STRENGTHS	WEAKNESSES	WAYS TO IMPROVE
The colour scheme are similar to his logo colours.	There is too much yellow use but this mayn't be able to be solved if his logo is yellow and blue.	Try use a different colour
The buttons that used pictures has labels beneath describing what they were.	The labels beneath were quite small which he should try to correct.	Make the size bigger.
His effort rating had a drop down box in effort rating to make it easier for his users.	He could've added a drop down box for the Genre field because that would help users as well.	Add another drop down box to genre.
He has used a consistent font.		
He has made a special effect on some of his boxes to make them look better.	He hasn't used a special effect on all of them.	Add more special effect.

In rection to my test buddy evaluation I have decided to improve on my data entry form to get more marks. I have changed the size of my font and added more special effect to my boxes. In addition, I added another combo box by selecting it in the toolbox.

Here is a screenshot of my final data entry form.

The screenshot shows a data entry form for 'Dance o'Clock'. The form has a yellow background and a logo in the top right corner. The logo is a blue oval with the text 'DANCE O' CLOCK' and a small figure of a person dancing. The form contains the following fields and buttons:

- Track ID:** A text input field.
- Title:** A text input field containing 'Bleeding Love'.
- Genre:** A dropdown menu with 'UR' selected.
- Artist:** A text input field containing 'Leona Lewis'.
- Album Title:** A text input field containing 'Leona Lewis'.
- Track Number:** A text input field.
- Year of release:** A text input field containing '2007'.
- Length(Seconds):** A text input field containing '180'.
- Effort Rating:** A dropdown menu with 'M' selected.
- Navigation Buttons:** 'Previous Record' (left arrow), 'Next Record' (right arrow), 'Add Record', 'Find Record', 'Save Record' (floppy disk icon), and 'Delete Record' (trash can icon).

Arrows from the text above point to the 'Dance o'Clock' title and the 'DANCE O' CLOCK' logo.
